

PREMIER MAKES PROGRESS TOWARD FORMING CABINET

Stresemann Has Three Men
In New Cabinet
So Far.

BELIEVE SITUATION
NOT SO SERIOUS

Bavarian Monarchy May
Have Been Set Up
Report Says.

Berlin, Oct. 4.—Dr. Gustav Stresemann made progress today toward formation of a new government to take the place of the Coalition cabinet, which resigned at midnight. The tentative slate this afternoon included the following:

Finance and Economics: Herr Minoux; Defense and Interior: Dietrich Duester; Labor and Food: Brannan.

Chancellor of Stresemann wishes to conduct the cabinet by consolidating numerous posts.

In the struggle between the Nationalists (as represented by the German People's party) and the Socialists, the former have emerged the victors. It is in reality, a victory for Hugo Stinnes, one of the leaders of the German People's party, who is opposing the Socialist doctrine of an eight-hour day, now established by law in Germany.

It is reported that Herr Minoux, right-hand man of the industrial magnate and director of many of his enterprises, has been slated for minister of finance.

Premier Von Kahr, of Bavaria, who holds the double post of prime minister and dictator, signed an order to Bavarians not to pay taxes to the Reichs German state as considered apart from Bavaria.

Later Von Kahr sent a telegram to Berlin demanding Bavaria's temporary exemption from federal taxation. The Bavarian official then held up the tax defiance order pending a reply from Berlin.

News that Von Kahr had signed an order to Bavarians not to pay taxes to Berlin was not published throughout Germany, the censor fearing to aggravate a situation that is already critical.

Here is the inside story of the events which immediately preceded the resignation of the Stresemann coalition government:

As a logical consequence of the establishing of a dictatorship the government saw itself obliged to draft legislation bestowing extraordinary financial, economic and social political powers. Before placing these measures before the Reichstag, Chancellor Stresemann met his cabinet behind closed doors. The Socialists, however, were not invited to the meeting. They were willing to grant special financial and economic powers but not social-political powers, the latter would open the way to the death knell for the eight-hour workday.

That was exactly what Stinnes' German People's party was driving at. The Socialists stood firm and refused to relinquish ground on the eight-hour day (which they called one great achievement of the revolution). They were willing to compromise and concede "elasticity" of the eight-hour day but never to abandon its principle.

U. S. Senator William H. King of Utah, who has just returned from Berlin, talked bluntly of the German situation with Felix Deutsch, Deutsch is one of the foremost financiers and industrialists in Germany, the successor of the late Dr. Rathenau, as head of the great and powerful German Electric company. He is a brother-in-law of Otto Kahn, the international banker.

"Let me tell you something, my dear sir," King said. "A large part of world public opinion blames you, yes, your German industrialists—for the present condition of your country. I want to ask you straight from the shoulder, you industrialists and financiers, what are you doing to relieve the situation? What are you doing to keep your country from going to smash?"

He warned that a red wave of communism would sweep over Germany unless working and living conditions were improved soon. King had a long talk with Deutsch and accused the industrialists of maintaining a policy that would eventually wreck the nation if continued in effect.

Monarchy, Set Up?

Berlin, Oct. 4.—An unconformable report was current here today that a monarchy had been proclaimed in Bavaria and that former Crown Prince Rupprecht had been invited to mount the throne. The Bavarian legation denied there was any truth in the report.

OKLAHOMA SERENE
AS COURT HEARS
LEGISLATORS' SUIT

Governor's Friends Say He
Is Not Beaten By
Klan Yet.

TOTAL RETURNS NOW
IN DEFEAT WALTON

All Quiet Waiting Action
Of Court On Pending
Case.

Oklahoma City, Okla., Oct. 4.—Although a military guard was patrolling the state house and vigilantes surrounded the court house in Oklahoma City ostensibly to safeguard election material, the city was more serene this morning than for several weeks.

Secret conferences of the governor and his advisors and plannings by state legislators were in progress. These were the only activities along the "trenches" in Oklahoma's invisible war.

Regardless of the outcome in district court of a suit to restrain any national guard from interfering with the assembly of the house of representatives, set for hearing this morning, and which was continued until this afternoon, it was certain the battle would be carried to the state supreme court. General belief was that if the decision favored the legislators' prompt appeal would be taken to preclude the possibility of a hasty setting in the meanwhile.

Close advisors of the governor declared the election yesterday could not be regarded as a repudiation of him. They said that in the general election of 1922 more than 500,000 votes were cast, while in yesterday's election they estimated the total vote will not exceed 300,000 when the official count is made. They explained that they expected 75,000 of the votes cast to be against the amendment. This, they said, would leave only 225,000 cast by the Ku Klux Klan and its adherents, "making the total of these who did not vote for the amendment 275,000."

It is alleged that the governor used state highway department employees, in violation of law, to check to substantiate his claim that many of the signatures were forgeries. Both the secretary of state and the state supreme court held the petition valid.

A grand jury called to investigate similar charges was proven from meeting three weeks ago by military activities following the decree of martial law.

Isolated returns received this afternoon from yesterday's special election continued to pile up an overwhelming vote for the constitutional amendment empowering the state legislature to convene at its own call to inquire into impeachment charges against Gov. Walton.

At 2 p. m. when 2142 out of 2837 precincts in the state had been heard from, the count stood, for 188,573, against 57,899.

ELECTS NEW OFFICERS

"DRY AGENTS" TAKE LIFE SAVINGS OF STORE PROPRIETOR

\$4,800 Vanish When Fake
Prohibition Agents Search
Man's Home.

MONEY WAS TO PAY
FOR STORE, HOME

Saved 13 Years For Chance
To Purchase Property
He Lived In.

Cleveland, Oct. 4.—Four thousand eight hundred dollars—the hard won savings of a lifetime—had vanished for John Jarkiewicz, proprietor of a soft drink parlor today. Money was stolen last night by three robbers, representing themselves to be prohibition agents with a warrant to search the place, which was used as a soft drink cafe and home, for illicit booze.

"We're from Columbus," the leader of the gang told Jarkiewicz "and we are going to search your place for booze."

Jarkiewicz accompanied a couple of the "agents" who went upstairs to the living quarters. His wife and daughter watched the others who remained downstairs. Their search was not long continued, and when Jarkiewicz came back downstairs he found that the agents had departed.

Surprised that their search had not been more thorough, Mrs. Jarkiewicz's suspicions were aroused.

"Are you sure they didn't get our money?" she asked her husband.

An upper room, where the life savings had been placed that afternoon, after having been drawn from a bank to make a payment on the property today, was searched. The money was gone.

"I worked hard and saved for 13 years," Jarkiewicz told police. "I had arranged to buy my place and got my money yesterday. The man was to come for it early today. Now all my work is for nothing."

Wife and daughter, the latter a pretty miss of 12 broke down and cried.

Police have descriptions of two of the three men, and the first three of six numbers on the car in which they drove rapidly from the scene of the successful robbery.

EARTHQUAKE ROCKS TOKIO AND OSAKA

Reports Say No Serious
Damage Was Done By
"Settling Shock."

London, Oct. 4.—A severe earthquake was felt in Tokyo early today, according to a dispatch from that city. Many residents were driven from their homes and the electric lights were cut off. The tremors were felt as far as Osaka.

No Serious Damage

San Francisco, Oct. 4.—Advices to Radio Corporation of America from the Tomioka, Japan station today indicated that no serious damage was done by the earthquake felt in Tokyo today. Details were lacking but it was said the quake had not registered heavily. Opinion was expressed here that the latest tremor was a "settling shock." These minor jars follow a major earthquake at various intervals as the earth's crust adjusts itself to its new position.

Bond Instead Of Bail For Motorists

Cincinnati, Oct. 4.—In an effort to curb reckless driving, Municipal Court Judge Yeatman ruled that hereafter all motorists charged with reckless driving as a result of accidents in which persons are injured will have to put up bond of \$1,000 instead of the usual \$50 cash bail and will be deprived of their driving rights until their cases are disposed of in court.

Yokohama Is Desolate City Writes Rev. West From Japan

Brother Of Salem Man Is Witness Of Tragedy That Followed Disastrous Earthquake And Fire Last Month.

So far as is known the first letter to reach Salem from Japan, since the disastrous earthquake there, is one received by Roy C. West, of Ohio, from his brother, Rev. Ralph West, who is a Methodist missionary in Japan. The letter came to the mother of these men, Mrs. O. E. West, Oak Hill. Here is the letter.

"Aoyama, Sept. 6

"I suppose you have heard a lot by this time about the trouble we have had here in the last week. The reports in the papers may have been exaggerated, but the actual conditions were bad enough. Fortunately we have all escaped uninjured. We have had no word as yet from the Alexanders, as they are in Gotsuba and it is hard to get any kind of messages through. We have heard however, that the earthquake was not bad there.

"This is the worst earthquake that has been felt here since 1854. Even then it was not as bad. There is no denying that this one was very severe. I was just entering a shop when it occurred and I ran out into the street to see the houses being shaken about. There are any the roofs and those that came down in heaps.

"In that section there are no large buildings and fortunately few of the houses were greatly damaged. The houses on our compound were also comparatively little damaged, although the school buildings suffered a great deal and at least one of them is a total wreck. But we are very fortunate for there was no fire in this section.

"After the quake the fire began almost at once and I kept going for two days until the great business section of the city was almost completely wiped out. Of course there is a large city here yet, but it consists chiefly of the suburbs and the parts outside the business section. From one place (Continued on eighth page.)

POINCARÉ'S STERN ATTITUDE TOWARD GERMANY APPROVED

Cabinet Backs Premier In
Uncompromising And
Stern Methods.

Paris, Oct. 4.—The cabinet today unanimously approved stern and uncompromising attitude maintained towards Germany by Premier Poincaré since announcement was made in Berlin that Germany would end passive resistance in the Ruhr.

Poincaré contends that all Germany's previous reparations offers to France are null and void because of the anti-French policy of former Chancellor Cuno. Consequently there is no German offer "on the table" at the present time for allied consideration.

Poincaré's policy of neutral observation of German internal events was approved.

According to advices received at the foreign office from Nuremberg, Premier Von Kahr of Bavaria threatened imprisonment or death, to any Bavarian who works for the occupational military forces.

HELLO GIRL HIT BY MACHINE AND NOT THROWN OUT

First Claimed Men Threw
Her Out Of Car But She
Confesses Later.

Cincinnati, Oct. 4.—The young woman who was found lying in the streets severely injured Tuesday night, and who said she was thrown out of a speeding auto, and gave her name, Marcelle Sandborn of Chicago, today admitted her story was untrue, and that she had been hit by an automobile as she was crossing the street.

She then gave her name as Mrs. Marcelle Ross of Louisville, Ky., but dispatches from Chicago last night identified her as Miss Marcelle Sandborn, a former telephone operator who disappeared from that city six weeks ago.

She girl's confession followed the appearance of police headquarters of two men who said she had told them she was hungry and had no money, whereupon they drove her in their automobile to a restaurant and gave her \$2.

As she was crossing the street to a restaurant, a speeding auto struck her and the two men jumped into their car and pursued the death car for three miles, but unable to get close enough to read its license number. Police are searching for the car which struck the girl.

Physicians at General hospital this morning said her condition was still serious.

TWO GUARDS ARE KILLED BY THREE PRISON CONVICTS

State Troops Surround Ken-
tucky Prison To Get
Desperados.

LIFERS ATTEMPT
TO SHOOT WAY OUT

Machine Guns Rain Bullets
On Dining Room Of
State Prison.

Eddyville, Ky., Oct. 4.—Another was added to the list of slain at the hands of three desperate convicts now besieged in the Kentucky state prison here today. V. B. Mattiny, wounded yesterday died in a hospital. W. N. Gilbert, a third wounded is dying in a Paducah hospital, it was said.

Two machine guns manned by national guardsmen from Hopkinsville, are keeping up an intermittent fire upon the darkened windows of the second floor dining room at the state penitentiary where the three desperate life term prisoners, armed with weapons smuggled into the prison, and seized from guards they overpowered, have held at bay the 89 officers of the institution since 9 o'clock yesterday morning.

Two guards killed, one mortally wounded and one slightly wounded is the casualty list so far in the mad dash of the three convicts for liberty.

Although the barricaded men have not replied to the fire of the besiegers since last evening, it is thought they are conserving their supply of ammunition and orders are "shoot to kill."

The gas guns brought here from the Louisville police department have been found impracticable, and the arrival of gas bombs from Frankfort is awaited before an attempt will be made to rush the prisoners.

Hodge Cunningham of Cadiz, a guard was killed in the first fusillade started by the convicts.

Mattiny laid for nearly six hours in the spot where he was shot down, exposed to fire from the barricaded convicts. His fellow guards were unable to respond to his appeals for water and attention for his wounds. A prisoner took water to the wounded man. Mattiny refused to let the convict carry him to safety, fearing the barricaded men would shoot him to death in his rescuer's arms. He was able eventually to drag himself to a point where rescuers could reach him, without being exposed to fire.

The convicts, Monte Walters of Louisville, Lawrence Griffith of Maysfield, and Harry Ford of Covington or Newport, initiated their desperate bid for freedom in a shirt factory of the prison Wednesday, according to Gilliam. Between 40 and 100 convicts were in the room. Gilliam says, when the three men seized and bound Lee Sholes, lone guard there, and with automatic pistols in their hands made a dash for the main entrance to the prison grounds, firing at every guard they met.

Invitations To War

PREMIER BALDWIN is authority for the statement that Europe is now supporting larger armies and spending more money on munitions than was the case in 1914. That is the discouraging thing. It seems futile to talk about cancelling debts when, if that course were taken in the supposed interest of weary and war-worn people, the money thus saved them would go into ambitious preparations to fight again. In this situation, there is no sensible argument for forgiving our European debtors. Debt and poverty are a sort of limited insurance for them against themselves.

Premier Baldwin says that it was only with the greatest reluctance that England made her recent decision to add largely to her defensive air forces. England, he says, would be glad to cooperate with the other powers in the limitation of air armaments, as of navies. But, as he suggests, one European power cannot cooperate alone. In fact, all the great powers would have to join in the agreement to make it safe for any. That is evidently the view taken by our own war department, which now insistently demands the building up of our army air service on a large scale, advancing the same old alarmist arguments about how a hostile power might defeat us before we could begin to fight.

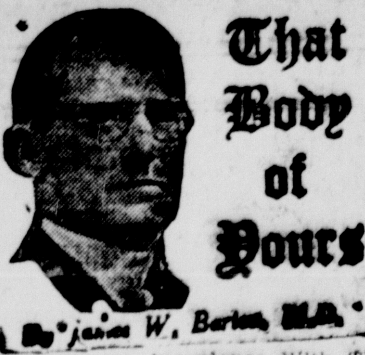

It is frequently asserted by the military experts that the next war will be fought in the air and there won or lost. If that is true, the recent agreement on the limitation of naval establishments was not of much account. If England and the United States could find the way to a drastic proportional limitation of all war preparations by all the potentially important powers, the world might have some safeguard against another great and destructive war. But what hope is there of that, with France in the Ruhr, with Italy eager to humble Greece, with Germany cowed but unrepentant and unregenerated, with Russia likely to attempt any crazy thing? Immediate national interest perhaps calls for armed preparedness but armed preparedness is merely an invitation to war, which generally accepts its invitation sooner or later.

Our Eveless History

IT is a remarkable fact that almost the whole history of our country can be written without mentioning the name of a woman. Of course there were those two great queens, Isabella of Spain and Elizabeth of England, and the Princess Pocahontas, all of whom played prominent parts in the early destinies of this continent. But the political history of the United States seems to have been free of direct feminine influence up to the equal suffrage era. According to present indications, it never will be so again.

In this respect, our annals differ widely from those of most of the European countries whose hereditary monarchies have brought female sovereigns to the throne, to say nothing of the domination of queen consorts and mistresses. In England, too, prominent women have long taken an active interest in politics. But American women, even as wives of high officials, have held aloof. This somewhat unique fact has sometimes been explained as due to our lack of a political social life, which short terms of office are not conducive to.

Caillard Hunt, in his book on "Life in America One Hundred Years Ago," tells of a certain Washington woman of high standing and intelligence, a Mrs. Samuel Harrison Smith, who, in 1814, was among those leaving the capital before the British invasion. When asked if she did not think we should have a standing army, she replied, "I am not competent to discuss such questions, sir." That appeared to be the correct attitude of a lady. Whatever the cause of such a regrettable state of affairs, it has led to an ultimate good. Now that the American women are entering national politics, it is not by the back door. She comes as an equal, and, when her period of preparation is over, there is every reason to believe that she will play her part well.

That Body of Yours

WHO WAS RIGHT?

During the examination of some nursing sisters for overseas service the examining officer turned to me and said:

"I'm afraid I will have to reject Miss — as she has an old spot at the top of her left lung."

I was able to verify this, and told the young lady that we were sorry but that we could not allow her to go overseas.

She felt so badly that I suggested that she consult a lung specialist for her own health's sake.

She did so, and he gave her the same advice as ourselves.

She went further and consulted the head of a large private tuberculosis sanatorium who also advised her not to proceed overseas.

She was a very determined young lady and by using very strong arguments with an officer higher up, she was passed for overseas service, by a very reliable lung specialist.

Her arguments were hard to combat. She had done hard private nursing service for years, she had been in the army on home service for two years, with long hours. Her weight had not varied in those two years. She felt strong and well. It was not fair to hold her back after seeing two years in home service.

Now why was she allowed to proceed overseas?

Was the last examining physician any better equipped to give an opinion than the head of this large institution?

No. Both men stood high in the profession, in fact were practically of equal standing. It was simply that those physicians who rejected her, felt that she was a little light in weight, rather frail looking, and that with the possible hardships in France, the old headed spot at the top of her left lung might break down and she would not have the frame the body to combat it.

Now the sequel is unsatisfactory although she got overseas, as it so happened that she was not under any rain at any time, and there was thus no opportunity of finding out which specialist was right.

And the lesson?

That although a person may have an old headed spot in the lungs, they are perfectly safe under ordinary conditions, particularly if they have a good appetite and are not losing weight; but with hard indoor work and long hours, there is liable to be a "lighting up" of the old trouble. Common sense is a big factor here, you see.

What Is a Dollar?

There are a number of ways in which a Dollar may be defined. A dollar is one hundred cents; a dollar represents a certain standard value; but the best description of a dollar is that it is the "beginning of a fortune."

A dollar carefully saved and placed at interest may become the nucleus of a substantial bank account and lay the foundation for a future fortune.

Try saving the first or next dollar that comes into your hands.

"Bringing Up Father On Broadway," Monday Night

When Husbands Deceive What Can Wives Do?

How clever is the mask of deception when it enables us to see truth where there is only dishonesty and treachery, and when it makes lies of the truth! "When Husbands Deceive," the Associated Exhibitors feature, showing at the High School auditorium Saturday night presents Leah Baird as author and featured player of a drama of domestic entanglements, in which a man, through deception, wins a wife and her fortune, and then, in accordance with the law of compensation—his just deserts.

Black Sheep Can't Stand the Pace

"To the person who believes one-third of what he hears, it would appear that all motion picture actors and actresses come from a purely wild branch of the genus-homo, that most of them never go to bed until after midnight and that a good part of them have been living in a half-paraded condition since prohibition came upon us."

So says Buster Keaton, noted comedian of films, who appears in "The Electric House," which is showing at the Royal tonight.

"That's hard for me to believe and though I don't want to make myself appear a saint, for I'm not, I'm sure the few black sheep of the profession are far outnumbered by those of paler hue."

When Riches Cannot Buy

"You don't know what money means—You've never starved," someone told John P. Smith, multi-millionaire. And he laughed at them. Only John starved, in his opinion, and if it had been prophesied that an early day would find him tramping the streets of a strange city, without a penny in his pockets and pangs of hunger under his belt he would have believed it possible. "A Pauper-Millionaire" relates the amazing and amusing experience of an American.

Says--Now Stiff Joints Must Go

New Discovery Limbers 'Em Up And Even the Creaking Ceases

Yes: It's true—the world progresses.

All you have to do nowadays to limber up that stiff, rusty knee joint is to squeeze a half inch of miracle working substance from a tube.

Then rub it on the offending part for about a quarter of a minute or until it soaks through the skin and disappears on its errand of mercy.

Then read the evening newspapers and go to bed.

The chances are that your misbehaving knee joint will lose its "creak" while you are dreaming about the high fences you used to leap when you were a youngster.

"And in the morning," says one who has tried the new discovery, "you will see so happy that you will want to jump into your sportiest clothes and walk briskly down the street just to show the neighbors that you are not as old as they think you are."

Joint Ease: They call this wonder working substance, for the reason that when ordinary remedies fail to limber up the stiff, inflamed rheumatic joint, or reduce the swelling, Joint-Ease succeeds.

It's a good name for a good, clean, stainless prescription that in just a few months has proven to a multitude of people that lame, swollen, distorted joints can speedily have the kinks taken out of them and work as smoothly as ever.

But Joint Ease is for bothersome joints, whether in knee, ankle, hip, shoulder, spine or finger, and for that purpose its sale is immense.

The J. H. Lease Drug Co., Flooding's drug store and Boger & French have a big supply of it and druggists everywhere report a big demand.

inal New York cast, Jack Donahue, who was one of the sensations on Broadway last season where the piece played the entire season, dividing its run between the Liberty and Globe theaters. "Molly Darling" was equally successful in Boston where it played three engagements in one season and at Philadelphia scored such a hit that two engagements were played, one at the Garrick and one at the Forrest. Supporting Mr. Donahue will be seen another New York favorite, Ann Milburn, who will play the title role. The entire original cast will be presented with the famed Globe theater beauty chorus.

Jiggs Is Coming

The beloved, but unfortunate Jiggs Mahoney, has been aided on the road of immortality through the offices of his creator, George McManus, is to appear in the flesh at the Grand theater, Oct. 8. Jiggs, as his legion of admirers know, is the original "Father" of "Bring Up Father" fame, the popular comics of Mr. McManus and which have given joy to millions and already has become a national institution. The new play, which is described as a musical comedy in two acts and five scenes is entitled, "Bringing Up Father on Broadway."

The other characters who figure in the side-splitting adventures as recorded in the dailies all over the country every day will be conspicuously in evidence, particularly Maggie, Jiggs' wife; Dinty Moore, who is still plotting Jiggs' destruction and Kitty who still has numerous suitors for her pretty hand. All told it should be a merry occasion and one destined to add to the glory and reputation of

one of the most popular cartoons of the day. A large cast has been employed and special music, song hits and innovations will be provided.

Rheumatic Agony

It does not matter to me whether you are disabled with cursed rheumatism or have only occasional twinges. I know that Allenhu, my own discovery, will stop the agony, do away with the gnawing pains and reduce the swollen joints says Mr. Allen.

I know it will dissolve the uric acid deposits that have become deeply imbedded in joints and muscles and quickly drive every trace of rheumatism from your body. I know this because I was crippled for years and many times was unable to work and Allenhu made a well, robust, healthy man of me.

I know because since I cured myself hundreds have taken Allenhu and speedily rid themselves of this agonizing disease.

No matter how severe your case, I urge you to put your faith in the prescription that it took me years to perfect—a prescription that made a new man of me after doctors tried and failed.

Allenhu is no laggard; it starts right in at once; it gets into the blood, searches out the poisonous uric acid deposit and in two days starts to drive the concentrated impurities that cause rheumatism, out of the body through the natural channels.

Bavaria Calls Rupprecht Its New King.

Prince Rupprecht of Bavaria.

Ex-Crown Prince Rupprecht of Bavaria, who commanded a group of German armies in the World War, was publicly hailed King of Bavaria by the Munich Fascists at a recent meeting there in which he spoke. The Royalist movement is gaining great headway in Bavaria, which many expect to see break away from the remainder of Germany and form an independent kingdom. As the initial step in this movement, August von Kahr, former premier of Bavaria, has been appointed Commissioner General of Bavaria, with full powers of dictator, and has failed to obey orders sent him from Berlin.

"Before I Die."

To endow "before I die" some sort of green place where little street urchins could play cricket, all accessories provided, was one of the dreams of Herbert Jenkins, London publisher. He began life at fifteen in a bookseller's shop. He and another boy used to sit up half the night devouring books. That boy was the poet, John Massfield. Walking to save a penny omnibus fare, refusing an invitation to a river picnic because of a sixpenny railroad fare, lunching on a bun—this is the picture of his early twenties, as he many times described it. In 1911, when he was about 35, his "Life of George Borrow" first brought him into public view. He has just died after building up a great publishing business.

Horseshoes of Paper.

It has been proposed to make a paper horseshoe that shall for general purposes be the equal of the steel article in the following way: Parchment paper is cut into horseshoe form and built up to a suitable thickness by the use of a mixture of turpentine, Spanish white shellac and linseed oil treated with litharge, and the whole is placed under a hydraulic press. This produces very light and uniform pieces and it is an easy matter to stamp out the nail holes and grooves. Instead of nailing to the horse's hoof they can be applied with an adhesive composition whose principal part is a solution of rubber in bisulphide of carbon. Paper waste could also be molded into the shape of a horseshoe by use of the press, but the result is not so good as with the above.

Stiff Scrimmage Each Night Preparing For Warren High.

This has been the stiffest week so far for scrimmage practice that the Salem High has yet had. Coach Richtman has had to try out many new plays and combinations and despite the fact that most of the men were battered at Massillon, heavy scrimmage practice has been the rule of order each day since that overwhelming defeat.

Saturday may see Voltmer in the lineup again. The star back has been out because he was down in his studies but he is now eligible and will probably be seen at one of the halves. This will mean a big addition to the backfield, as Butch can be used at full, center or half.

Surprising is the fact that nearly three teams are out regularly each night. Never before have so many freshmen and sophomores been on the squad and willing to stack up against the varsity in scrimmage. It will mean the building of a fine team for next year, something that Richtman must be given credit for. His predecessor left the team with no understudies and as a result it was necessary to build an entire new team this year.

From all reports Warren has one of the strongest teams in the school's history. Usually beaten by a big score by Youngstown-South the Warrenites held South to a nothing to nothing tie last Saturday and clearly demonstrated that they are a team to be feared.

Salem High it is assured, will go into the Saturday fracas better prepared than in any game so far, not only as to players, but with much experience gained by two defeats. It will be a fighting Red and Black squad that takes the field. Either way it looks like a small score.

EXPERT EXPLAINS MAJOR CHANGES IN FOOTBALL RULES

Cleveland, Oct. 4.—Adding the defense of the forward passing game is the chief change in the 1933 football rules as revised by the inter-collegiate rules committee. The ambiguity in some of last year's regulations is clarified and the position of the various players, comprising the aerial attack is clearly specified.

According to last year's rules, a player slightly behind the line of pass and also the player next to him, it was eligible to receive a forward pass, and yet almost touching the 1933 rules specify that at least seven players shall be on the scrimmage line, stating that the backfield men must be a yard behind the scrimmage line to make the next man eligible to receive the pass.

The separation of the men eligible to receive a forward pass from the ones ineligible, under last year's rules, threw a terrific burden of proof both on the officials and also upon the defensive half-back. This year's rules clearly state that to enable the next man inside to receive the pass legally, the end must be a full yard behind the scrimmage line. The penalty exacted for infraction in five yards.

The new rules clearly state that a pass whether handed or thrown must be from a point, at least five yards back of the scrimmage line. This point was assumed last year, but is definitely stated in the new rules. The word "hand" is inserted to make clear the fact that a ball handed to a player ahead of the holder is a forward pass.

Penalty For Delay
The rule relative to players not being in motion, except the one having the ball, when play starts from scrimmage, is amplified in the interest of the officials.

Delay in starting the game, not satisfactorily accounted for to the referee, calls for a choice by the offensive team of the goal and of either putting the ball in play on their opponents' 25-yard line or letting the offensive side put the ball in play on its own 15-yard line.

In the section relative to a fair catch made at the expiration of the period, the rules are altered to make clear that not only is the kick allowed, but also the subsequent play resulting from the kick until the referee calls all declare the ball dead. In the case of a touchdown made at the expiration of the period, the try-point is allowed.

Several articles under rule six "definitions" have been made clearer. The definition of a place kick being given as "kicking the ball while it is resting on the ground, scraping up or off the earth permissibly, but no artificial tee allowed." A ball, passed or kicked from behind the goal post and striking the goal post continues in play as though the incident did not happen and is not considered "dead." Similar clarification is made in the matter of the safety.

A kick off going over the goal line and then out of bounds is now a free ball, which may be converted into a touch-down if recovered by the kicking side or a touch-back if recovered by the defending side. This rule is subject, however, to approved ground rules.

BUCKS IN FIRST OPEN PRACTICE

Columbus, Oct. 4.—The first, last and only open practice of the Ohio State football squad was held Wednesday afternoon and thousands of students and friends are expected to

VIEW THE SCRIMMAGE. COACH J. W. WICE PUT THE GRIDDERS THROUGH. MORE THAN 300 FRESHMEN REGISTERED FOR FOOTBALL TUESDAY. NEARLY 100 OF THE YEARLINGS WERE EQUIPPED WITH UNIFORMS TODAY. COACH "RED" TRAUTMAN HAS PROMISED TO HAVE THE FROSH READY TO MEET THE VARSITY BEFORE THE END OF THE WEEK.

LAFAYETTE AND PITT WILL MEET

Pittsburgh, Oct. 4.—Lafayette college is the football attraction at the University of Pittsburgh here Saturday and the game is an unusual one in many respects. It brings together the two rival coaches, "Pop" Warner and "Jock" Sutherland. Sutherland being the man who is to replace Warner here as head coach when "Pop" takes up the reins at Stanford university in 1934.

Sutherland is a Pitt product, being one of the most famous line-men the Panthers ever had, and a member of the invincible 1916 team. He has been head coach at Lafayette for three years, and during the past two seasons has turned in victories over the Panthers.

MINERVA PLAYS SCHAFERS SUNDAY

The Schafer Independents will play the Minerva Independents Sunday at Centennial park it was announced by Manager Webber Thursday. The Minerva team is one of the best that ever represented the town. Fred Campbell, head of Salem plays on the line and is acting manager of the squad.

The Schafer eleven will break out with their new uniforms at that time. These uniforms were delayed for two weeks but have finally arrived and Scarlet and Gray will predominate Sunday.

FIRPO DENIES HE WILL BE CITIZEN

New York, Oct. 4.—Luis Firpo, the Angelic piano mover, had no intention of renouncing his Argentine citizenship when he took out his first papers in naturalization bureau here several days ago. The action was merely a graceful gesture of appreciation for the kindness shown him here in America. The matter, however, was to end abruptly at that point. He will not take out his first papers four and one-half years hence.

The Latin made this clear to the writer, by means of an arm-waving interpreter today. "I thought I would demonstrate my gratitude to the American public for the great reception it gave me in defeat," Firpo declared. "I made up my mind to do something when they'd named a gun for me during a recent military ceremony at Fort Hamilton. The taking out of first papers was suggested to me and I followed the suggestion. But renounce my Argentine citizenship? No, I am too proud of it."

"The whole story is this I didn't want the American public to regard me as a man who takes everything 'gives nothing.' Far from forgetting his compatriots Firpo intends to return to the Argentine 'as soon as possible' and stay as long as possible." He even contemplated staking the young men down there to a thrill, or so, by meeting Erminio Spalla, heavyweight cham-

PION OF ITALY, IN A BOUT TO A DECISION. ALL OF HIS PLANS ARE INDEFINITE, HOWEVER. HE DOES NOT KNOW WHEN, IF EVER, THE SPALLA AFFAIR WILL TAKE PLACE NOR HOW LONG HE WILL REMAIN BEFORE RETURNING TO AMERICA, SEEKING TO CONQUER FURTHER JAWS AND CUSTOMERS. THE WORTHY MR. RICKARD WILL HAVE NO HAND IN THE PROMOTION OF THE SPALLA BOUT, HE ADDED.

ONLY ONE COUNTY GAME ON SATURDAY

Only one all-county game will be played Saturday. East Palestine will play Columbiana at home in what looks to be an easy game for Palestine. Though Beaver defeated Palestine last Saturday, Columbiana is not asked to duplicate that score and it is doubtful if Palestine will experience much trouble in disposing of their opponents.

East Liverpool plays a neighbor. Chester across the river. The down county team does not pay a county team until Oct. 27 when Salem plays at that city.

Lisbon plays Alliance at the county seat. Leetonia will go to Hubbard and should have no difficulty in winning.

Putting It Up to Aunt.

Aunt Mildred, of marriageable age but unmarried, took her nephew, Robert, downtown on a shopping expedition.

They stopped at a large clothing store and, while Aunt Mildred was interested in a contemplated purchase, one of the young men clerks undertook to entertain the small boy by playing tag with him.

Finally tiring of the game, Robert ran up to Aunt Mildred and breathlessly called out: "Now you chase the man, Aunt Mildred."—Chicago Tribune.

YOKOHAMA

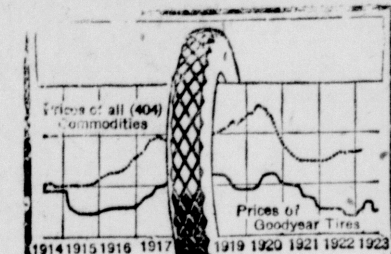

Continued from First page
one may look for miles in almost every direction and see only desolation and destruction.

"But Tokio is not as bad as Yokohama. Yokohama is practically all wiped out. Our mission houses there were not burned, but they were badly damaged, so that I doubt that anyone can live in them, or would want to live in them. One can almost say that there is no Yokohama any more, and it is a question whether there ever will be such a city as there once was."

"After the quake we did not want to return to our houses, so we have been living in the gymnasium of the girl's school. We have bedding there, and it is not so bad. There was a lot of noise there for a while, but people are getting more calm now. I think we shall soon go back to the houses now. We have had one little boy born on the compound since the quake. He is the son of Mr. and Mrs. Martin, and they spoke of calling him 'Jishin,' which is the word meaning earthquake. Mother and baby are all right in spite of the hectic time they had."

"There are now thousands of homeless people and food has been a little scarce, but it is more plentiful now, and will be more so as foreign ships are bringing in food. There are some American warships here now."

"The beginning of school will be delayed, but it will start as soon as possible in the one or two undamaged buildings. We are now safe enough for such quakes do not come often, so do not worry. So far as I know,

58 Per Cent Of Imports Go For Use In Manufacturing

American Industry Takes Jump And Consumes Much Raw Material.

Washington, Oct. 4.—As an evidence of how American industry has been stimulated since the passage of the Republican tariff law, nearly 58 per cent of our imports for the first eight months of the current year consisted of crude materials and manufactures for further use in manufacturing. Total imports for the eight months were \$2,551,000,000 of which these two groups made up \$1,525,000,000.

Comparing the 1923 with the 1922 period, imports of crude foodstuffs and food animals increased from \$212,000,000 to \$227,000,000, while partly or wholly manufactured foodstuffs advanced from \$275,000,000 to \$286,000,000. A large portion of the foodstuffs imported consisted of coffee, tea, cocoa, spices, bananas, coconut products and other tropical products of non-competitive character increases in the importations of which tend to the enhanced purchasing power of a prosperous people.

Manufactures ready for consumption increased from \$431,000,000 to \$505,000,000. Total imports show an increase over last year's period of from \$1,953,000,000 to \$2,551,000,000, or nearly \$700,000,000.

"It Does the Work," Declares Mansfield

"Before taking Tanlac I could hardly handle an air hammer, and didn't have the strength to pick up a crowbar, but since taking it my weight is up ten pounds," is the characteristic statement made recently by Abe Mansfield, iron worker, 122 Twelfth st., Toledo, O.

"About a year ago I was so run down I didn't feel like working. I was bilious, constipated, dizzy-headed, had little appetite, my stomach cramped me after eating, my nerves went to pieces.

"Well six bottles of Tanlac rid me of indigestion and constipation completely, and built up my strength so I enjoy being on the job every minute during working hours. My nerves are like steel now, and I am as active and spry as anybody I know. I boost Tanlac to the limit because it does the work."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold.

Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale everywhere.

You May Put It Off, But--

I urge no one to wear glasses or have their eyes examined. If you do not value your eyes enough to have them taken care of properly, you are the loser, you have no one to blame but yourself. It isn't only you who pays the cost but the person depending upon you for support.

Do you know the condition of your children's eyes? If not it was time you were finding out about them. Now is their hardest time while in school. Don't blame the child for being back in its studies, their eyes may be the cause. Come in and have their eyes examined.

If Your Light Bill Runs Higher This Month

—remember that daylight hours are growing shorter. You'll naturally use more electric light from now on.

Last summer you only glanced at the paper for a few minutes after supper. Too hot to stay indoors and read! Nowadays you read all evening, perhaps. At least you're around in the house.

The early morning hours are darker, too. If you rise early, you need light to shave by. All winter you'll eat breakfast by electric light. These added hours of service naturally show some increase in your bill.

Even so, electric light is cheap and abundant. You can burn twenty big 50-Watt lamps for a full hour and only consume one kilowatt of electricity.

The Most Drastic Step Ever Taken by the Under-selling Store at the Beginning of a Season

\$25,000 Worth of New Fall Clothing

At Way Below Prevailing Prices

Here is the way we intend to get the clothing business of the town and to sell as much clothing in October as we usually do all season. We went to the manufacturers and showed them our plans of campaign for increased business and the advantage it would be to them to have a larger outlet for their merchandise, so they worked with us on a closer price basis than ever before, all at the beginning of the season and we have priced these garments at the smallest margin we have known. We know that you and every other man will respond to our effort to keep prices down for you.

350 Suits and Overcoats

The garments featured in this group at \$18.95 represent an extraordinary saving to you. They're well made, high-grade garments from leading New York and Rochester makers. A wonderful selection to choose from in fall's newest style ideas and colorings. All are neatly trimmed and finished in a manner that usually is found only in clothing to sell at a much higher price.

Why Fear Child-birth

EXPECTANT mothers do not undergo useless suffering any longer, and baby's birth can be made gloriously easier.

Mrs. Wm. Flack, 115 N. 12th St., Leavenworth, Kansas, says: "Mother's Friend" is the best help in the world for an expectant mother. I am the mother of three children and have found "Mother's Friend" fine.

"Mother's Friend" is externally applied about the abdomen, back and hips. It penetrates wonderfully, and in this way allows the muscles and ligaments to relax easily and readjust themselves to the changes during expectancy and at child-birth.

Use "Mother's Friend" as our mothers and grandmothers did. Don't wait, start today, and meanwhile write to Bradford Regulator Co., B.A.73, Atlanta, Ga., for free booklet containing valuable information every expectant mother should have.

"Mother's Friend" contains no narcotics or harmful drugs. It is safe. There is no substitute. Avoid useless greases and plain oils. Start using "Mother's Friend" now—the sooner the better. "Mother's Friend" is sold at all good drug stores—everywhere.

Do you walk around the town with a pocket full of pennies, fascinated by the thought that some scale may register your weight a few pounds lighter?

Many women do—yet it's quite unnecessary if one will only give up a few fattening foods, and substitute tasty, nourishing dishes that do not add weight.

Make these light, delicious muffins and biscuits yourself, so that they will give the minimum of fuel value. Substitute them for wheat bread or richer bread-stuffs, and they will go a long way toward helping you diet easily.

NOTE: Instead of using rich, whole butter, try diluting a pound of butter with a pint of evaporated milk. Beat well, together, and you will find it palatable, yet not fattening.
